

CRfusionGait AGGREMENT

CRfusionGait is an open-source gait recognition dataset collected with camera and radar sensors which is collected by National Key Laboratory of Radar Signal Processing, Xidian University. Any one or group is allowed to access the dataset under the following conditions:

1. The dataset should not be further distributed, published, modified or copied.
2. The dataset is only being used for scientific purposes.
3. The following reference should be cited if the dataset is used.
